Description

With only one previous owner and a very low mileage of 7,142 miles, this 2025 BMW 520i M Sport Pro offers a nearly new experience for its next driver. As a BMW manufacturer approved vehicle, this saloon combines a 2.0L petrol hybrid engine with Euro 6 emission standards, ensuring it meets modern environmental requirements. The M Sport Pro trim enhances the driving experience with a panoramic glass sunroof that includes an opening function, alongside comfort access for keyless entry and sun protection glass. Drivers also benefit from the comprehensive Technology Plus Pack, which integrates adaptive cruise control, a head up display, and a full suite of parking assistance features including front and rear cameras and sensors. This vehicle stands out by balancing performance with practicality, achieving a 0 to 62mph acceleration time of 7.5 seconds while maintaining low

CO2 emissions. The inclusion of the petrol hybrid engine provides an efficient driving solution without compromising on the power expected from a BMW. Furthermore, the generous boot space ensures that this model is well suited for both daily commuting and longer journeys, offering a versatile and capable option for those seeking a premium saloon that prioritises both modern technology and everyday usability.
